[netreshsatpute@gmail.com]

Results-driven Video Editor and Motion Artist with 2 years of professional experience specializing in commercial edits, cinematic 3D documentaries, and high-impact teasers. Proficient in managing end-to-end post-production workflows by blending advanced editing techniques, AI-accelerated processes, and striking 3D visual elements. A dedicated lifelong learner who consistently explores new creative tools, software, and generative AI trends to elevate brand narratives. Highly skilled in translating complex concepts into engaging, high-retention stories through dynamic pacing, color grading, and seamlessly integrated motion graphics.

Core Competencies & Skills

Software Expertise:

- DaVinci Resolve 20, Adobe Premiere Pro, Blender (Active Workflow Integration)

AI Integration & Generative Tools:

- ComfyUI, Pinokio, AI Video/Image Generation, Generative Workflows, Complex Style Transfers

Specialized Editing:

- Cinematic 3D Documentary Editing, Cinematic 3D Teasers, Cinematic 3D Integration, Commercial & Ad Editing

Motion & Visuals:

- Motion Graphics, UI Motion Videos, Color Grading, Social Media Reels Optimization

Production & Workflow:

- End-to-End Post-Production, Camera Operations, Lighting Setup, Storytelling & Visual Pacing

Professional Experience

Video Editor | Trans Aviacons

Hyderabad | October 2025 - Present

- Edit and deliver commercial, corporate, and promotional video content with a strong emphasis on cinematic visual pacing and brand storytelling.
- Implement AI tools into daily post-production workflows to optimize efficiency and enhance visual fidelity, consistently delivering high-quality projects under tight deadlines.
- Collaborate closely with production teams and ensure smooth, timely client revision cycles without compromising creative integrity.

Freelance Video Editor & Motion Artist | Netresh

March 2025 - September 2025

- Operated independently to manage the complete editing pipeline for branded social media videos, promotional edits, and cinematic films and wedding films.
- Leveraged AI generation software and 3D modeling to create custom, high-end assets and dynamic UI motion videos for integration into broader storytelling frameworks.
- Maintained direct client communication, handling feedback efficiently and building a reputation for consistent delivery discipline and creative problem-solving.

Cameraman & Video Editor | Arham Vijja

June 2024 - March 2025

- Shot and edited event and promotional videos, taking ownership of visual composition from on-set capture to final export.
- Managed physical camera setups and complex lighting arrangements to ensure premium raw footage.
- Assisted in vital pre-production planning, strengthening foundational storytelling skills and workflow efficiency.

Project Highlights & Strengths

Advanced AI Implementation:

Strong integration of cutting-edge generative AI tools (such as ComfyUI and Pinokio) to accelerate editing pipelines, generate conceptual assets, and execute complex, stylized visual treatments.

Cinematic 3D Integration:

Actively incorporating Blender into daily post-production workflows to conceptualize, render, and blend 3D assets into documentary and teaser formats, applying hands-on learning directly to live projects.

Dynamic UI Motion Design:

Replaced static UI/UX design with dynamic UI motion videos, creating engaging simulations of digital interfaces for tech and promotional content.

Modern Editing Philosophy:

Strong visual sense prioritizing fast turnarounds, modern high-retention pacing, and a growth-oriented mindset focused on long-term creative vision.

Education

Bachelor of Arts (B.A.) in Literature

(English, Sanskrit, and Jain Darshan)

JAGADGURU RAMANANDACHARYA RAJASTHAN SANSKRIT UNIVERSITY — JAIPUR,
RAJASTHAN
